From the home screen of your device, tap the **Menu** button in the upper right.
Tap the *Settings* application.
Select **Accounts & Sync** from the left menu then tap the **Add Account** button in the upper right.
Select Email.
Enter your **Email Address** and **Password** then tap **Manual Setup**.
Tap IMAP.
Enter `securemail.dewebworks.com` in the IMAP Server field and ensure SSL/TLS is selected for Security Type. Tap Next.
Enter securemail.dewebworks.com in the SMTP Server field and ensure SSL/TLS is selected for Security Type. Tap Next.
Modify and additional options required. Tap **Next**.
Enter your Full Name in the Your Name field. Tap Next.
This completes the email setup process and you should now be able to read messages using the Mail application on your device.
